ENERGY EFFICIENT

MODULAR

COMPACT

Standard Model FA 120 - 420

We offer the following types of smaller Vomat compact filtration systems.

- + FA 120 - 240 with integrated cooling unit
- + FA 300 - 420 with external cooling unit

Type	Cooling Performance* (kW)	Filtering Capacity (L/min)
FA 120	9	120
FA 180	9	180
FA 240	13	240
FA 300	13	300
FA 360	20	360
FA 420	20	420

*Cooling performance depends on grinding machine

Standard Model FA 240

Standard Model FA 120 - 420

- + Dimensions: 1600 x 1000 x 1200 mm (L x W x H)
- + Filter body with separate clean and dirty oil sections
- + Filtration grade: 3 µm - 5 µm
- + Demand-based, energy-efficient filtration via frequency controlled system pump
- + PLC control
- + Oil capacity for filter system ≈ 500 L
- + Variable oil volume ≈ 200 L
- + Input voltage: 3 ~ 400 V
- + Service friendly cooling unit (integrated in the filtration system) [FA 120 - 240]
- + Condenser mounted on folding filtration lid [FA 120 - 240]
- + Control accuracy: +/- 0.2 K

FILTRATION SYSTEMS OF TOMORROW

The Vomat FA 120 - 420 series has been consistently improved and sets new standards in the filtration systems industry

We produce everything according to the customer requirements ranging from the standard system to a customized complete solution

ALL FROM ONE SOURCE

VOMAT®

Installation and commissioning of the complete system including piping on customer request

Waste Disposal

- + Newly developed sedimentator with fully automatic collection of recyclable material with residual moisture of approximately between 5% -10%
- + User friendly disposal directly into a transport container from recycling companies

Sludge Treatment

Options

- + High Speed Steel (HSS) pre-filter
- + Drive cooling of machine tool
- + RCS - Remote Control System / Visualisation
- + Various energy-efficient cooling systems (compression, water, etc.)
- + Single pump supply or central supply
- + Remote maintenance system

Options
