COMPACT

Machine Supply Pumps

Machine Supply Pumps

The machine supply pumps are supplied, as an option, according to the requirements of our machines.

Cold Water Cooling System

Cold Water Cooling System

- + Custom solutions with external water cooling circuit

External Cooling

- + Cooling unit as add-on device
- + Control accuracy: $\pm 1,0$ K at an ambient temperature of 15 – 35°C
- + Cooling performance: from 9 to 60 kW
- + Available with an optional external condenser

FILTRATION SYSTEMS OF TOMORROW

We produce everything according to customer requirements ranging from the standard system to a customized complete solution

ALL FROM ONE SOURCE

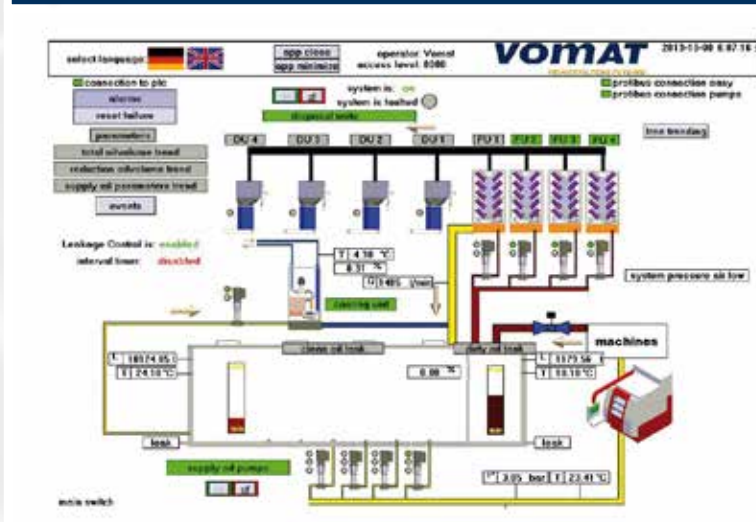

VOMAT®

Installation and commissioning of the complete system including piping on customer request

RCS - Remote Control System/ Visualization (remote maintenance)

- + Optional integrated remote control system for filter system
- + We are able to control and supervise your system from our offices
- + The advantage: Error detection and troubleshooting without service intervention
- + Leakage monitoring

Option

Integrated Cooling (FA 120 - 240)

- + The condenser is fitted in the lid of the filter system
- + Optional: external condenser can be attached to the building's exterior wall with an inside/outside switching function (optionally room temperature controlled)
- + Control accuracy: $\pm 0,2$ K at an ambient temperatures between 15-35°C
- + Cooling capacity: from 9 to 40 kW

Axle Drives Cooling

- + Can be coupled as a modular unit to Filter system

External Condenser for External Cooler
